

APRIL 2010

It's Autism Awareness Month!

The autism community is gearing up for National Autism Awareness month. Whether you're planning to host a fundraising event, participate in a walk, or put on your awareness shirt... let's celebrate and educate!

To find events in your area, visit www.1power4autism.org

What's New?

A few new items have been added to our offerings, including a hand-made organizer tote available in two sizes. The quality construction and stable-stand base make it not only unique, but practical.

Also new to the line, awareness yard signs with a custom autism logo for display at your fundraising event, or in your lawn year round.

Visit our website today to purchase your awareness items. During the month of April, you will receive a free gift with purchase, a sterling silver charm, as a token of appreciation for your support.

Autism Legislation

Why it's Important- The CDC estimates an average of 1 in 110 children have an autism spectrum disorder. Additionally, it estimates that up to 560,000 people between the ages of 0 and 21 have ASD.

Only 15 states specifically require insurers to provide coverage for the treatment of autism. Be informed; visit www.ncsl.org and search 'Autism Legislation Database' to learn about current legislative campaigns in your state.
